Volume 160 Number 1 May 1997

Peptides

1 Effect of atrial natriuretic factor and fate of cyclic-guanosine-monophosphate in the rat kidney *M.-L. Syrén*

9 The goat mammary gland as a target organ for atrial natriuretic peptide *K. Cvek, R. Gerstberger, H. Schütz and K. Olsson*

15 Pituitary adenylate cyclase activating peptide (PACAP) in salivary glands of the rat: origin, and secretory and vascular effects *S. Mirfendereski, G. Tobin, R. Håkanson and J. Ekström*

Exercise

23 Cardiovascular and catecholamine responses to static exercise in partially curarized humans *J. A. Pawelczyk, R. A. Pawelczyk, J. Warberg, J. H. Mitchell and N. H. Secher*

29 Increased finger arterial blood pressure after exercise detraining in women with parental hypertension: autonomic tasks *J. Buckworth, V. A. Convertino, K. J. Cureton and R. K. Dishman*

43 Middle cerebral artery blood velocity, arterial diameter and muscle sympathetic nerve activity during post-exercise muscle ischaemia *F. Pott, C. A. Ray, H. L. Olesen, K. Ide & N. H. Secher*

49 High proportion of type I fibres in thigh muscle of young dancers *M. Dahlström, M. Esbjörnsson Liljedahl, J. Gierup, L. Kaijser and E. Jansson*

Cardiovascular

57 Cardiovascular regulation by endogenous nitric oxide is essential for survival after acute haemorrhage *S. Mellander, J. Björnberg, U. Ekelund and P. Alm*

67 The capillarity of the subendocardium of left ventricle in rats reared at a low temperature for many generations *M. Gao, S. Batra, T. Koyama, T. Yabata and A. Kuroshima*

Retina

71 Glucose metabolism of the inner retina in pigs in darkness and light *L. Wang, P. Törnquist and A. Bill*

75 Glucose metabolism in pig outer retina in light and darkness *L. Wang, P. Törnquist and A. Bill*

Miscellaneous

83 Leptin and thermogenesis in humans *J. A. Tuominen, P. Ebeling, M. L. Heiman, T. Stephens and V. A. Koivisto*

89 Pressure-volume relationship for rat dermis: compression studies *J. L. Bert and R. K. Reed*

95 Enhanced increase of plasma sodium pump inhibitory activity to saline expansion in vagosympathectomized and anaesthetized dogs *M. Rodríguez-Martínez, D. Brito-Orta, M. Alonso-Galicia, L. Padilla-Ruiz and E. Davila-Esqueda*

103 Effect of inhibition of pentagastrin-stimulated acid secretion on gastric mucosal gland luminal pressure *I. Synnerstad, A. E. G. Persson and L. Holm*

Rapid communication

113 Oxygen consumption and vital organ masses in young growing quail (*Coturnix coturnix japonica*) *C. Lilja*

115 Instructions to authors

Volume 160 Number 2 June 1997

Circulation

117 Global cerebral blood flow during infusion of adenosine in humans: assessment by magnetic resonance imaging and positron emission tomography *K. Stånge, D. Greitz, M. Ingvar, T. Hindmarsh and A. Sollevi*

123 Laser-Doppler measurements of concentration and velocity of moving blood cells in rat cerebral circulation *C. Barfod, N. Akgören, M. Fabricius, U. Dirnagl and M. Lauritzen*

133 The effects of triiodothyronine (T_3) on heart rate, temperature and ECG measured with telemetry in freely moving mice *C. Johansson and P. Thorén*

Exercise

139 Rigorous swim training impairs mitochondrial function in post-ischaemic rat heart *S. B. Leichtweis, C. Leeuwenburgh, D. J. Parmelee, R. Fiebig and L. L. Ji*

149 Influence of ingested fluid volume on physiological responses during prolonged exercise *G. K. McConell, C. M. Burge, S. L. Skinner and M. Hargreaves*

Kidney

157 The effects of enalapril on the natriuretic response evolked by an oral sodium load in sodium deprived normotensive and hypertensive rats *J. Y. Mu, M. Johansson and O. Lundgren*

165 Angiotensin II induces a tachyphylactic calcium response in the rabbit afferent arteriole *M. Kornfeld, A. M. Gutiérrez, A. E. G. Persson and M. Salomonsson*

Miscellaneous

175 Motor unit potential contribution to surface electromyography *K. Roeleveld, D. F. Stegeman, H. M. Vingerhoets and A. van Oosterom*

185 Na^+/glucose cotransport in the colonic adenocarcinoma cell line HT29 cl.19A: effect of cAMP *M. Hemlin and X. Huang*

Rapid communication

195 L-arginine reverses indomethacin-induced inhibition of inflammatory fluid secretion of the feline gall bladder *B. Nilsson and D. S. Delbro*

197 Instructions to authors

Volume 160, Number 3 July 1997

Skeletal muscle

199 Effect of bovine serum albumin on the calcium release channel of sarcoplasmic reticulum from rabbit skeletal muscle *M. P. Catinot, B. Bastide, V. Montel, G. Suarez-Kurtz and Y. Mounier*

Smooth muscle

207 5-Hydroxytryptamine, angiotensin and bradykinin transiently increase intracellular calcium concentrations and PKC-a activity, but do not induce mitogenesis in human vascular smooth muscle cells *J. W. Assender, E. Irenius and B. B. Fredholm*

219 Endothelium-dependent vascular smooth muscle relaxation activated by electrical field stimulation *G. G. Geary, G. Maeda and R. R. Gonzalez Jr*

Heart

229 The energetics of the quiescent heart muscle: high potassium cardioplegic solution and the influence of calcium and hypoxia on the rat heart *M. T. Marquez, A. Consolini, P. Bonazzola and J. E. Ponce-Hornos*

235 Heart rate variability in healthy subjects is related to age and gender *K. Jensen-Urstad, N. Storck, F. Bouvier, M. Ericson, L. E. Lindblad and M. Jensen-Urstad*

Peripheral circulation

243 Capillary geometry in the soleus muscle of rats cold-acclimatized for 68 generations *J. Suzuki, M. Gao, T. Yahata, A. Kuroshima and T. Koyama*

251 Middle cerebral artery blood velocity during rowing *F. Pott, L. Knudsen, M. Nowak, H. B. Nielsen, B. Hanel and N. H. Secher*

257 Brachial arterial blood flow during static handgrip exercise of short duration at varying intensities studied by a Doppler ultrasound method *A. Kagaya and S. Homma*

Kidney

267 Transepithelial transport and cell volume control in proximal renal tubules from the teleost *Carassius auratus H. Kanli and D. A. Terreros*

Miscellaneous

277 Presence of angiotensin converting enzyme (ACE) activity in serum of amphibian: comparison with ACE activity of mammalian serum *A. Miano, M. Bramucci, O. Murri, L. Quassinti, E. Maccari, M. Zerani, A. Gobbetti and D. Amici*

283 Adenosine triphosphate treatment for meconium aspiration-induced pulmonary hypertension in pigs *P. Kääpä, T. Jahnukainen, J. Grönlund, M. Rautanen, L. Halkola and I. Välimäki*

Rapid communications

291 Salivary endothelin and its response to postural changes in humans *P. A. Whitson and Y.-M. Chen*

295 Electrophysiological evidence that the twitch contraction of guinea-pig vas deferens is triggered by phasic activation of P_{2x}-purinoceptors *L. Stjärne and E. Stjärne*

297 Erratum

299 Instructions to authors

Volume 160 Number 4 August 1997

Kidney

301 Renal function after myocardial infarction and cardiac arrest in rats: role of ANP-induced albuminuria? *S. H. Nielsen, E. Magid, J. Spannow, S. Christensen, H. R. Lam and J. S. Petersen*

311 The natriuretic response to a dopamine DA_1 agonist requires endogenous activation of dopamine DA_2 receptors *A.-C. Eklöf*

Skeletal muscle (Exercise)

315 Altered basal and adenosine-mediated protein flux from coronary arterioles isolated from exercise trained pigs *V. H. Huxley, D. A. Williams, D. J. Meyer Jr and M. H. Laughlin*

327 Adaptation of myoglobin in compensatory hypertrophied rat muscle *K. Masuda, Y. Kano and S. Katsuta*

333 Duration and mechanisms of the increased natural cytotoxicity seen after chronic voluntary exercise in rats *I. H. Jonsdottir, C. Johansson, A. Asea, P. Johansson, K. Hellstrand, P. Thorén and P. Hoffmann*

341 The relationships between EMG and muscle morphology throughout sustained static knee extension at two submaximal force levels *B. Gerdle, S. Karlsson, A. G. Crenshaw and J. Fridén*

353 Differential responses in intramuscular pressure and EMG fatigue indicators during low versus high level isometric contractions to fatigue *A. G. Crenshaw, S. Karlsson, B. Gerdle and J. Fridén*

Mucosa (Permeability-Secretion)

363 Acid-induced increase in duodenal mucosal permeability is augmented by nitric oxide inhibition and vasopressin *A. Hällgren, E. Wilander and O. Nylander*

371 Calcium channels and intestinal fluid secretion: an experimental study *in vivo* in rats *A. Timar Peregrin, M. Svensson, M. Jodal and O. Lundgren*

379 Effects of calcium channel blockade on intestinal fluid secretion: sites of action *A. Timar Peregrin, H. Ahlman, M. Jodal and O. Lundgren*

387 Effects of topical platelet activating factor on the guinea pig tracheobronchial mucosa *in vivo* *L. Greiff, I. Erjefält, J. S. Erjefält, P. Wollmer, F. Sundler and C. G. A. Persson*

Airways

393 The cGMP pathway is not responsible for the blunted hypoxic vasoconstriction in rat lungs after altitude exposure *K. Asano, Y. Yanagidaira, K. Yoshimura and A. Sakai*

401 Inhaled carbon dioxide inhibits lower airway nitric

oxide formation in the guinea pig *G. L. Bannenberg, C. Giammarresi and L. E. Gustafsson*

Receptors

407 Quantification of alpha-2A and alpha-2C adrenoceptors in the rat striatum and in different regions of the spinal cord *S. Uhlén, J. Lindblom, G. Tiger and J. E. S. Wikberg*

Miscellaneous

413 Glucagon-like peptide-1 reduces hepatic glucose production indirectly through insulin and glucagon in humans *H. Larsson, J. J. Holst and B. Ahrén*
